

GENERATION **PINK**®

ONE MISSION. THREE GLOVES.

## ONE MISSION

Medline started the Generation Pink movement with a single vision: A World Without Breast Cancer is in Our Hands. It's now the largest philanthropic cause in our company, where we partner with the National Breast Cancer Foundation to support free mammograms for underserved women, build awareness at forums for nurses and other healthcare workers, and even spread awareness virally through social media and events such as The Pink Glove Dance.

Your overwhelming response to Medline's pink gloves helps make our support of awareness, early detection and prevention possible. *Thank you.*

## ONE MISSION. THREE GLOVES.

At Medline, pink gloves help us support the National Breast Cancer Foundation: over half a million dollars to date. Their mission of **awareness, early detection and prevention** links up perfectly with ours: A world without breast cancer is in our hands™.

Healthcare providers like you have embraced pink gloves—and all that's behind them—since their 2009 introduction. Every pink glove sale supports Medline's partnership with the NBCF, which has sponsored over **130,000 mammograms** for traditionally underserved women. We're proud to be associated with them. Thank you for helping us do our part.

Seen over 11 million times since it went viral in 2009, the Pink Glove Dance kicked off a huge wave of **awareness, joy and caring**. The 2010 sequel promises ten times the moves, ten times the hope. Watch the video at **www.pinkglovedance.com**.

Olympic gold medalist and breast cancer survivor Peggy Fleming speaks to members of the Association of Perioperative Registered Nurses (AORN) during their 2010 meeting. Nurses are not only caregivers but key influencers of other women when it comes to early detection. Medline has proudly sponsored the **breast cancer awareness** breakfast and program for the past six years.

**A WORLD WITHOUT BREAST CANCER IS IN OUR HANDS.™**

## THREE GLOVES

Medline now has three Generation Pink™ gloves that help financially support programs for breast cancer awareness, early detection and prevention among underserved women.

Our gloves are more than just pink; they provide the comfort, fit and protection that you've come to expect, each with their own great features:

- 1 **Generation Pink Pearl™** nitrile glove – the everything glove.
- 2 **Generation Pink™ Nitrile** glove – for extra sensitivity.
- 3 **Generation Pink™ Vinyl** glove – the exceptional vinyl glove that started it all.

ONE MISSION. THREE GLOVES.

### 1 GENERATION PINK PEARL The Everything Glove

- Extra protection of nitrile
- Aloe vera to soothe and moisturize hands
- Superior chemical resistance and barrier protection

Pink Pearl starts with the extra protection of nitrile, adds the soothing comfort of an organic aloe lining, then gives the glove the glamorous sheen of your favorite string of pearls. It's pink and from Medline, so you know it's helping support the NBCF. It's truly the glove for people who like having it all.

### 2 GENERATION PINK NITRILE The Extra Sensitive Glove

- Superior chemical resistance and barrier protection
- Best value in nitrile gloves

When you need extra protection, you need nitrile. Generation Pink Nitrile delivers proven protection for some of the toughest health care situations. Boxes now hold twice the usual amount of gloves for convenience, savings and waste reduction.

# THE DANCE GOES ON...AND ON

This year, we really went the distance: from New York to San Francisco, from mile-high Denver to sea-level New Orleans and a dozen points in between. Eleven hospitals and three nursing homes danced for joy.

And for the first time, survivors joined healthcare workers for the Generation Pink celebration.

Most importantly, thanks to you, we're raising awareness and generating resources to fund early detection and prevention efforts.
