Medical Gloves

SAFESKIN* BLUE NITRILE

Powder-Free Nitrile Exam Gloves

In any healthcare setting, protection from exposure to micro-organisms is of critical importance – for you and for the patients under your care. Gloves provide the primary shield required to prevent contact with infectious substances, including blood-borne pathogens, and reduce the risk of cross-contamination.

From proprietary latex and nitrile formulations for moderate to high risk procedures involving infectious fluids or blood-borne pathogens, to vinyl for low risk situations, Kimberly-Clark* SAFESKIN* has a glove solution for you. Our complete line includes gloves for primary care services, dental procedures, diagnostic tests, surgical procedures and general use applications.

SAFESKIN* BLUE NITRILE

The SAFESKIN* BLUE NITRILE is a smooth latex-free glove with excellent tactile sensitivity.

Functional Benefits

- · Smooth finish provides excellent tactile sensitivity.
- Special design provides superb fit and comfort for extended wear.
- · Beaded cuff for added strength and ease in donning.

Clinical Specifications

- Natural Rubber Latex-free primary material is acrylonitrile-butadiene, reducing the potential for Type I glove-associated allergic reactions to natural rubber latex proteins.
- Low Dermatitis Potential This product demonstrated reduced potential for sensitizing users to chemical additives.
- Powder-free (according to ASTM D 6124), minimising the potential for powder-related complications, such as irritant contact dermatitis.

Mission Statement

From protective apparel to medical devices – everything we make, everything we do, is focused on protecting healthcare professionals and patients. This means we work every day to develop and deliver quality products and to provide responsive customer service that you can depend on to meet your protection needs.

Quality Standards

- Meets or exceeds AQL 1,5 in accordance with European Norm EN 455-1.
- CE-marked as Medical Device Class I (93/42/EEC).
- Biocompatible as measured by Primary Skin Irritation, Repeat Challenge Sensitisation and 200 Person Modified Draize Test.
- This Medical Device is tested additionally according to the European Norms for Personal Protective Equipment: EN 388 and EN 374-2/3.
- Manufactured in accordance with Quality System ISO 9002.
