

Bringing Comfort and
Fit to a Powder-Free
Nitrile Exam Glove

Sensicare Ice™

- Comfortable fit
- Excellent sensitivity
- Dependable protection
- Reliable grip
- Crisp blue color
- 100% Latex-Free

We know that latex allergies are on the rise and that you're looking for latex glove alternatives to protect both patients and staff. Nitrile gloves are a popular option, but they still have shortcomings. Though they're known for offering the same great protection in high-risk and high-stress environments, nitrile gloves tend to be stiff and uncomfortable.

With Medline's new Sensicare Ice examination glove, you can finally have it all – the comfort of latex in a nitrile glove. This glove can be used facility-wide, from the ICU all the way to phlebotomy.

Sensitivity and peace of mind...the Sensicare Ice from Medline.
