

# UltraSense® EC EXTENDED CUFF

## POWDER-FREE NITRILE EXTENDED-CUFF EXAMINATION GLOVES

Recommended for use in the following industries:

Healthcare / Dental / Industrial Safety / Laboratory / EMS

**The protection you deserve at a price you can afford!**

UltraSense®EC is a patented, next generation nitrile formulation that provides a reliable barrier while offering the comfort you are used to with a latex glove. Engineered with enhanced tactile sensitivity that provides an excellent grip in both wet and dry environments. UltraSense®EC is an extended cuff offering that is packed 100 gloves per box as opposed to the standard 50, maximizing your savings.

Recommended for use when:

- Strength and protection are of great importance
- Working in environments that demand consistent grip and reliability
- Precise contact requires enhanced tactile sensitivity
- When your day-to-day duties require a glove that is resistant to tapes and adhesives

This glove meets or exceeds all current and proposed NFPA standards.
